„The program usually causes quite a lot of surprises for me. Wherever we go, I can't imagine what could be exciting that day and **yet I go home afterwards not being able to tell at home what happened because there is so much excitement in one day.**”.

Kornél Szabó

mentored

"I notice that I managed to change the children's outlook on life. They used to have only vague ideas about what they wanted to do later in life. We managed to make them realize that **it also depends on them where their lives will go next."**

Marcell Benedek

mentor ambassador,

Eszterházy Károly Catholic Univeristy

"For me, the greatest experience is that we have achieved it: the children accept me and they look forward to meeting me every week."

István Orsós

mentor ambassador,
University of Pécs

Company visits are a lifetime experience and motivation for children for their secondary school studies.

These are children who, in the absence of help, mostly drop out of secondary school.

„ Every child needs a dream. A vision of how you see yourself as an adult, a goal for which you study and work.”

Thank you for your attention!
